

Hello,

I'm Anna. I've been studying IRM since the winter semester of 2023, and I highly recommend it.

The connection between culture, politics, and economics really helps me bridge gaps in discussions and gain a broader understanding of society and global patterns of behavior.

During the semester abroad, you can choose specific areas of focus; for me, that was politics.

Overall, the study abroad experience and the preparation and follow-up we do in Regensburg are top-notch!

If you're looking for an interdisciplinary program with a personal atmosphere where you can take advantage of many additional opportunities, then come to IRM. 😊

If you have any questions about the semester abroad or internship, life in Regensburg, or the program, feel free to reach out.
