

I have been studying International Relations and Management since the winter semester 2021/22. My personal highlights of this degree program are: the range of topics, the compulsory semesters abroad and the IRM-network. If you have any questions about the IRM degree program, studying in Regensburg in general or simply want to talk about topics such as vegan food, the Balkans, politics, K-Pop, the environment, etc., feel free to write to me. I look forward to your message.
