Aspects of International Social Work (Prof. Dr. Ruth Seifert)

2 SWS, 3 CP

Inhalt:
The seminar deals with issues in international social work as well as with social policy and social work issues in other countries. Students are introduced to the increasing internationalization of social work and to the problems international social work is confronted with such as social work in crisis areas, different cultural attitudes towards social problems and different ways of dealing with those problems in other political and cultural contexts. Moreover, the different ways of understanding and organizing social work in other countries are dealt with.
