Information on the Application for the Master’s Degree Program Informatik (Computer Science)

The standard period of study is 3 semesters for full-time and 6 semesters for part-time studies.

The course of studies contains the areas of specialization "Medical Informatics", "Software Engineering", "Technical Informatics" and "Business Informatics". The choice of a specialization is made upon enrollment. Applicants should be aware that not all areas of specialization may necessarily be offered.

1. Qualification Requirements are:

1) a successfully completed university course of study in a relevant field of study comprising at least six theoretical study semesters or an equivalent domestic or foreign degree, the scope of which generally comprises 210 ECTS credits, but at least 180 credits. All undergraduate courses of study in computer science are considered relevant. The examination board decides on the relevance and/or equivalence of the degree as well as the equivalence of the degrees obtained at foreign universities, taking into account Art. 63 BayHSchG.

2) proof of a special qualification by a cumulative average grade of "good" or better. Alternatively, the requirement is also fulfilled by proof that the final grade submitted in the first degree course falls within the group of the 60% best in the percentile ranking of the degrees of that study program at the respective university.

3) the program allows the study option "Research" in each area of specialization. This option is selected at the time of enrollment. Please note that there is no guarantee that this option will be offered. If the study option "Research" is chosen, a mentoring agreement must be drawn up with a professor of the Faculty of Computer Science and Mathematics who has been appointed by the board of examiners and who performs teaching duties in the Master’s program in Computer Science. The mentoring agreement must be enclosed along with the application.

4) sufficient German language skills, see FAQ 10.2

Please also refer to the study and examination regulations (SPO)

2. Admission Procedure:

Applications for admission can only be accepted if they are from the OTH Regensburg and are submitted in due time and form. Applications should be sent to the “Referat Zulassung und Organisation” (Admissions Office), not to the Examination Commission or the respective faculty.

Application Period:
winter semester 01 May – 15 June
summer semester 15 Nov. -15 Jan.

For more information, please see the following page:
https://www.oth-regensburg.de/studienbewerbung.html

Please note that this is a cut-off period! Late applications will not be accepted.
3. The Following Documents must be Uploaded:

- records of achievement / grades / transcripts, if the diploma is not yet available
- diploma *
- university entrance qualification (university entrance qualifications acquired abroad, e.g. graduation certificates, must be translated copies and at least translated into English)
- certificate of de-registration *
- curriculum vitae
- proof of sufficient German language skills (DSH 1 or equivalent, see FAQ 10.2) for non-native German speakers **
- mentoring agreement (if the study option “Research” is chosen)

* If these documents are not yet available at the time of application, they can be submitted on enrollment or, if received later, by the end of the first semester.

** required when your studies begin

Please note:
If you do not have a degree certificate at the time of enrollment, you must resubmit a current grade certificate with a preliminary average grade for enrollment online. This certificate must show that you have a maximum of 15 ECTS points outstanding. The preliminary average grade must correspond to the required overall final grade.
