

"If you have the ability and creativity, start appearing and not giving up, because success is not achieved fast, it passes through the stages."

Anisa Hoti- Selfmade Art, Accessoires and Jewellery

1. Can you tell me something about yourself?

I am Anisa Hoti from Prishtina. I'm 17 years old. Now I'm in high school. What I think is my characteristic is creativity, because to create something you need to be creative and have many ideas.

2. Could you make a short description of what you do as an entrepreneur?

I have opened a small business through social networks. I sell various gifts I work by myself. Some of the work I do with paper and cardboard and some with stones. It depends on what the client wants from me as a product.

3. How did you get the idea of your job?

I have always had hobbies involving different decorations and jewelry. At first, I only worked for myself, then when I saw that I liked it, I even started selling items.

4. What inspires you?

What inspires me most of the idea that women can also have their own business. And especially a female with a headscarf (Muslim) in our country is difficult to hire, so she can create a job for herself.

5. What is the most interesting part of your work as an entrepreneur?

My works are all handmade. The most interesting thing is that they never come out exactly the same because they are the inspiration of the moment.

6. What is the most challenging part of your job?

The most challenging part is distributing orders because sometimes some are irresponsible for the timeliness. Or there are times when the order is made but then they do not go out to get it since I do the distribution myself. I do not understand what she is saying here, so I cannot correct it.

7. Can you find any differences between you as a female entrepreneur and a male one?

For a man I believe it is no problem even they have to distribute during the night, but for me it is a problem. But soon I will sign a contract with a deliverer that will distribute my works.

8. Do you plan or consider to make something on your own?

If my job continues successfully, I think that after a while I open a shop with my work.

9. Do you have enough free time? Is it challenging for you to combine family time and student work life?

I have enough time because I do these gifts and jewelry at home, even when I'm spending time with my family.

10. Do you have any advice for students who want to be entrepreneurs?

If you have the ability and creativity, start appearing and not giving up, because success is not achieved fast, it passes through the stages.

11. What hobbies do you have in free time?

After my works, my biggest hobby is reading especially romans.
